

Activity: It's a Miracle Participant Hand-out

Think for a few moments about the kinds of challenges your school district faces with respect to parental and community engagement. Jot down a few of the issues that come to mind.

Suppose you go home from work and do whatever you planned to do for the rest of the day. And then, sometime in the evening, you get tired and go to sleep. In the middle of the night, when you are fast asleep, a miracle happens and all the problems with parental engagement that you have been struggling with are solved, just like that.

In the morning nobody tells you that the miracle happened.

When you wake up the next morning, how are you going to discover that the miracle has happened?

...What else are you going to notice?...What else?... What else?...

What would 'miraculous' parental and/or community involvement in a school look like?
