

ONTARIO EDUCATION SERVICES CORPORATION

## Good Governance for School Boards

Trustee Professional Development Program

# Advocating for Your Cause

### Facilitators' Instructions:

This PDF comes from an American source and cannot be altered. It does, however, provide good information for participants about what advocacy and an advocacy perspective are. This activity uses the Hispanic community in the US in its examples. Any immigrant, linguistic or religious group of particular interest in the board's school district could be substituted in the activities.

The information is good, and the three cases on the third page provide participants with opportunities to consider the various sides of advocacy.
