

9 Family and Community Engagement

Reflections: Brainstorm Activity

Brainstorm all the ways that your school board currently:

- Communicates with the public, parents, constituents, the business community, service providers, other elected officials, etc.
- Consults with the public, parents, constituents, the business community, service providers, other elected officials, etc.
- Partners with public, parents, constituents, the business community, service providers, other elected officials, etc.

How could these existing relationships be improved?

Are there obvious gaps or opportunities that are being overlooked? How could these be addressed?

Should this list and these opportunities be discussed at a board meeting?
